

Professor Dominic Ryan

McGill University

Department of Physics

Email: dominic.ryan@mcgill.ca

- PhD - Dublin University, 1986
- Professor – McGill University, 1988-Present
- Primary Research Techniques: Mossbauer Spectroscopy - Use of Several Non-Standard Isotopes (153-Eu, 155-Gd, 166-Er, 170-Yb, 197-Au)
- Neutron Scattering: Depolarization, Reflectometry, Powder Diffraction (Primary contribution being the development of the large-area flat plate mount (with Lachlan Cranswick) for working with Sm, Eu and Gd samples)
- ~300 Journal Publications
- Former VP & President of the Canadian Institute for Neutron Scattering (CINS)
- Former Director of the McGill Centre for Physics of Materials
